

Training to improve children and young people's lives

Understanding the Impact of Trauma on the Wellbeing and Behaviour of Children and Young People

Venue: Northampton

Price: **£85.00** per person

£65.00 Full Time Student

(including refreshments & complimentary lunch)

Time: 9:15am until 4:30pm

Trauma in children is often not expressed through words. This course is designed for professionals working with children that have experienced trauma. The key focus of this one day training is to offer you the opportunity to develop your understanding of trauma and how it impacts on children and young people. Recent developments in the neuroscience of trauma will be presented in an accessible and understandable style. It is recognised that traumatised children can be hard to reach for a number of reasons. The training will offer you the opportunity to learn how to communicate and support children that have experienced trauma.

Benefits this course will offer:

- By attending this training, you will gain a clear understanding of the current theories and research relating to trauma.
- The course will offer insight in to the potential impact of trauma on children and young people.
- You will gain valuable techniques to enable you to engage with children and young people who may have been experienced trauma.
- Gain a range of clear indicators to help you identify when children require additional support.
- You will leave with knowledge of the range of additional support that can be offered for traumatised children and young people.
- You will have the opportunity to learn in a high quality safe training environment, where learning is enjoyable.

“The course is thought provoking and enjoyable. At **Jogo** we are committed to taking your knowledge and skills to the next level.”
